**HEARING HEALTHCARE
AND HEARING CONSERVATION
SERVICES DELIVERED**

HEAR FOR YOU AND YOUR WORKFORCE

HEAR Wisconsin provides our local communities with comprehensive hearing healthcare and wellness services. We've seen first-hand how our programs and personalized care help the people we serve live happier, healthier, more productive lives. Now, we've hit the road — bringing our services directly to you and your workforce with Wisconsin's first-ever nonprofit Mobile Audiology Clinic.

Our Mobile Audiology Clinic extends the accessibility of our expertise to more people throughout our Wisconsin communities and addresses a critical need for convenient, affordable and quality hearing healthcare and hearing conservation services in your workplaces. By filling this gap, we can put everything we earn back into your community and help you deliver a more effective safety and health management program.

FUELED BY EXPERTISE

We are the audiology and hearing conservation experts. Our state-of-the-art mobile clinic is supervised by a team of audiologists with doctorate degrees, OSHA training, CAOHC certification, and extensive hands-on experience. Pair this with our entire in-house team of communication and technology professionals — and you and your employees get a level of expertise that's second to none.

46%

Percent of manufacturing workers are exposed to hazardous noise levels while on the job¹

TOP 3

Hearing loss is among the top recorded occupational illnesses in Wisconsin²

1 IN 5

Number of noise-exposed manufacturing workers with hearing loss that impacts day-to-day activities³

2.5

Healthy years of life lost per year for every 1,000 noise-exposed U.S. workers⁴

BENEFITS DELIVERED

COMPLIANCE

- Fulfills OSHA hearing conservation requirement through employee testing, education, and training
- Protects against workers' compensation claims

COST

- Priced to compete with for-profit service providers
- Saves on employee downtime and minimizes loss of productivity
- Reduces long-term employee healthcare costs with early detection

CONVENIENCE

- Brings our mobile clinic and services right to your location
- Tests up to 18 people per hour on average
- Wheelchair accessible

CARE

- Provides employees with end-to-end hearing healthcare and strengthens employer wellness initiatives
- Elevates care with additional service options at our local clinic

COMMUNITY

- Supports a nonprofit that serves your local communities
- Strengthens your corporate social responsibility initiatives
- Ensures nobody, no matter their resources, is left behind

OUR HEARING CONSERVATION PROGRAM

Get cost-friendly, comprehensive testing that goes the extra mile to connect the dots between detection, prevention and treatment.

- Timely evaluation of audiograms puts employees at ease and gets you the information you need faster
- All tests (regardless of results) are reviewed by doctors of audiology, never generalists or technicians like many testing providers
- Easy-to-read test results streamline recordkeeping and eliminate confusion and unknowns for you and your employees
- Access to educational materials and additional specialized services supports hearing conservation efforts and promotes safety culture
- Clinical audiometers and other equipment are on board to facilitate additional services, such as full hearing tests or ear impressions for custom hearing protection
- Referrals for additional testing and services are made when necessary to ensure employees receive affordable, comprehensive care

ABOUT HEAR WISCONSIN

HEAR Wisconsin is a nonprofit organization that helps infants, children and adults with hearing loss by eliminating communication and language barriers through personalized services, technology and education. At HEAR Wisconsin, we offer a wide range of services for people of all ages with all degrees of hearing loss.
